UP TO THE VOTERS.

Campaign Is Over and Ballots Settle the Argument.

REVIEW OF POLITICAL ISSUES

Chief Interest Centers in Outcome of the Contest in Ohio.

CANVASS WAS BRIEF BUT VIGOROUS

Leaders Guessing on Account of the Shortage of Registration in the Principal Cities — Democrats Anticipate an "Off-year" Result — Republicans Confident of Victory — Anticipation of Election Situation Elsewhere.

Columbus, O., Nov. 4.—The apathy that prevailed during the present campaign continued up to the eve of the election. The campaign in Ohio was as quiet as it was short. The falling off of the registration in the large cities, the unusually indefinite indication of the poll books and the general lack of interest have put the leaders to guessing. While the Republicans are confident of winning, they fear the small vote may greatly reduce the pluralities they expected on the state ticket and probably make the result in the legislature close on joint ballot for senator. The Democrats are depending on the traditional results of "off-years" in Ohio and on their opponents being the greater sufferers from the shortage in the vote. They say the Republicans are having troubles in all the larger cities on which they depend for their pluralities, that the rural districts are Democratic and not disturbed by local difficulties as the cities. Local affairs enter into the election more than usually. Besides a full state ticket and members of the legislature there are full county tickets. In Cincinnati, the vote on the extension of the lease of the Cincinnati Southern railroad is a most important factor. In Cleveland, Mayor Johnson's taxation theories and factional troubles complicate the situation. In Toledo the old centennial controversy and in Columbus "local option" and other complications are diverting attention from both national and state issues.

In his last appeal to voters Chairman Dick of the Republican state committee repeated the keynote of standing by the principles of McKinley and supporting President Roosevelt in carrying out the same. Chairman Dick predicts a larger Republican plurality than two years ago and a majority of 11 senators and of 30 representatives, or 41 on joint ballot if a full vote is cast throughout the state.

Secretary Gilliam and Colonel W. A. Taylor of the Democratic committee, estimate the reverse and Taylor gives figures on a mathematical calculation of percentages in the shortage of the vote.

Gotham's Fierce Battle.

New York, Nov. 4.—Save for the financial preparation for marshaling forces at the polls Tuesday the municipal campaign is at an end. Seth Low and Edward M. Shepard, the rival candidates for mayor, Justice William Travers, fusionist nominee for district attorney of New York county and the other leaders on the two tickets made their last speeches Monday. Both sides are determined to bring out the heaviest vote possible and to that end the organizers will devote all of their time until the polls close. The eve of the election finds both sides apparently confident. The Democrats claim victory for the entire city ticket by from 30,000 to 40,000 majority, while the fusionists advance practically the same claim. The fusionists assert that they are certain of the defeat of Robert A. Van Wyck, the present mayor, who is a candidate for justice of the supreme court. They also express great confidence in their ability to elect Edward M. Grout as comptroller. Grout was elected president of the borough of Brooklyn four years ago as a Democrat. The sharpest contest of all the bitterly contested campaign is between Justice William Travers, fusionist, and Henry W. Ungar, Democrat, for district attorney of New York county. Each side claims success for its man with equal positiveness.

Kentucky Outlook.

Louisville, Nov. 4.—Democratic and Republican leaders were at headquarters bright and early Monday for the final day's work and both sides reiterated their claims of majorities ranging from 5,000 to 7,000 in the city. The Democrats appear more confident than the Republicans, but the Republicans have worked harder than for

years. Outside the city throughout the state, there has been almost no interest and no surprises are looked for in the legislative races.

Prospect in Iowa.

Des Moines, Ia., Nov. 4.—It is the general opinion that the vote for the selection of state and legislative officials will be small compared with one year ago and even less than three years ago. There are five tickets in the field, Republican, Democrat, Populist, Prohibition and Socialist. The apathy which existed from the start continued to the end. There has been no prominent issue before the state and the only speaking campaign conducted has been that of the Republicans, the Democratic candidate, T. J.

Phillips, being content with a "hand-shaking" tour of the state. There will be chosen a governor, lieutenant governor, superintendent of public instruction, railway commissioner, judge of the supreme court and members of the legislature. All concede that A. B. Cummins, Republican, will be elected governor and his majority is estimated by the Republican state chairman at 77,000, while the Democratic chairman is willing to concede 40,000.

Philadelphia Fusion.

Philadelphia, Nov. 4.—Fusion of Democrats with independent Republicans intensifies the interest of the election here. E. A. Coray, Jr., (Rep.) for state treasurer and Herman Yerkes, (Dem.) for supreme judge are the fusion candidates. In this city many Democrats, including former Governor Pattison unite with the Union party in support of P. F. Rothermel (Rep.) for district attorney. Regular Republicans backed by Senators Quay and Penrose support Frank G. Harris for state treasurer and W. P. Potter for supreme judge and confidently expect to win. John Weaver is their candidate for district attorney. A Democratic faction is supporting for district attorney W. W. Carr, postmaster here during Cleveland's administration.

Denver's Hot Fight.

Denver, Nov. 4.—Only county officers are to be selected in Colorado, and in most localities the campaign has been on local issues. There has been a bitter contest between Republicans and Democrats in Arapahoe county, which includes the city of Denver, where both sides claim to have the advantage.

Nebraska's Finish.

Lincoln, Neb., Nov. 4.—The campaign in this state closed Monday night with several rallies in South Omaha addressed by William J. Bryan. The registration here is 2,000 short. Chairman DeFrance of the fusion forces anticipate a satisfactory vote in the country districts. The outcome is problematical.

Counter Claims in Jersey.

Trenton, N. J., Nov. 4.—Democrats claim their candidate for governor, James M. Seymour, who was twice elected mayor of Newark by big majorities, will be elected by 8,000. The Republicans claim Franklin Murphy will have 10,000 majority.

Local Elections in Kansas.

Topeka, Kan., Nov. 4.—Only minor elections will be held in Kansas. A law passed last winter provides that county elections shall be held at the same time as the state election, which occurs next year.

Sneaking Arms Into Samar.

Manilla, Nov. 4.—Advices from Catbalogan, Samar, says it is well known that, in spite of the fact that all ports of Samar are closed, supplies still reach the natives. Most of this work is done during dark nights by small boats from the island of Leyte. Every available gunboat is endeavoring to prevent this. The capture of Lukman's commissary has proved a great blow to the natives, as it renders future supplies very precarious. Conditions in the island of Leyte are very annoying to General Smith. A large number of junks are used with the express object of aiding the natives in Samar covering the movements of fugitives and landing provisions and clothing.

Going Home to Vote.

Washington, Nov. 4.—President Roosevelt left for Oyster Bay, L. I., where he will vote Tuesday. He was accompanied by Mrs. Roosevelt, Secretary Cortelyou, Assistant Secretary Loeb and Henry Pinckney, the White House steward. The party traveled in the special car attached to the regular Pennsylvania train. The president will return to Washington immediately after casting his ballot. Mr. Loeb and Mr. Pinckney, the steward, also will vote at Oyster Bay. Secretary Cortelyou will vote at Hempstead, L. I. Mrs. Roosevelt will return with the president.

London, O., Nov. 4.—Fire broke out in the livery barn of the Davidson hotel, destroyed the barn, including 14 horses, 9 rubber-tired rigs, 21 sets of harness and a large quantity of hay and feed. Loss \$15,000. C. B. Strain, the liveryman, is the heaviest loser. The warehouse of Dwyer Bros., containing 25 tons of hay was also burned.

THE TESTIMONY ENDS.

Counsel in Schley Inquest Begin to Analyze the Evidence.

ARGUMENT WILL TAKE THREE DAYS.

Admiral Schley Last Witness to Appear Before the Court—Some Corrections in Previous Statements. More Documents Submitted.

Washington, Nov. 4.—Two new witnesses were before the Schley court of inquiry Monday, and both of them were called in the interest of Admiral Schley. They were Frank B. Richards and George Lynch, both of whom went through the Cuban campaign as newspaper correspondents. Mr. Richards was on the press boat Premier, and testified concerning the interview with Captain Sigsbee while the latter was in command of the St. Paul off Santiago in May, 1898. Mr. Lynch was on the Somers N. Smith, and was called to tell about Captain Sigsbee's communication to that boat.

The first witness to take the stand was Captain Sigsbee, formerly of the St. Paul, who was recalled for the purpose of reviewing his former testimony. Admiral Schley also was called for this purpose, and his statement occupied a good portion of the time of the court. His testimony in chief occupied five days, and as many of his statements were made off-hand there were many verbal changes to be made, as well as some additions. During the day Captain Lemly submitted for the consideration of the court a large mass of documentary evidence, including Captain Goodrich's report concerning cable cutting April 29, 1898; the reports made by Captain Philip, of the Texas; Captain Higginson, of the Massachusetts; Captain McCalla, of the Marblehead, and Captain Cotton, of the Harvard; Commodore Schley's report of May 30; Captain Wise's report of the operations of the Yale off Santiago; the log of the Spanish ship Cristobal Colon; Admiral Sampson's orders to Captain Folger, of the Scorpion; Commodore Schley's letter to the senate; one of Captain Sigsbee's letters and also the letter of the secretary of the navy to the senate as printed in executive document C.

There has been no change of the program arranged for the presentation of argument by counsel. Mr. Hanna lead off for the government, Mr. Hanna talking about three hours and was followed by Captain Parker on behalf of Admiral Schley. Mr. Rayner for Admiral Schley and Captain Lemly for the government will conclude the presentation of the case.

While Captain Sigsbee was on the stand, Mr. Rayner asked him if he megaphoned or otherwise communicated to the press boat Premier while off Santiago the fact that the Spanish fleet was not in Santiago. Witness replied that he did not do so, although he would have been justified in saying so if he had thought it proper under the circumstances of war.

When Captain Sigsbee was excused Captain Lemly announced that he had no more witnesses to call. Frank B. Richards was then sworn.

Mr. Richards stated that he was on the dispatch boat Premier during the Santiago campaign, and that the boat was hailed by Captain Sigsbee this night or May 27 or 28. At this point Captain Lemly objected to this line of evidence on the ground that Commodore Schley was not present during the conversation; also, it was not material.

Mr. Rayner contended that this conversation with Captain Sigsbee is one of the vital points of the case; that it bears directly upon one of the most important specifications of the precept. After a short argument by Mr. Hanna in support of Captain Lemly's objection the court sustained the objection. Under this ruling neither Mr. Richards nor Mr. Lynch could testify, and Admiral Schley took the stand to correct his testimony.

Coming to his answer to a question in reference to his order sent below during the early part of the battle to "Stand by to ram," Admiral Schley emphasized his former testimony by stating that "there was a distinct attempt to ram on the part of the Maria Teresa, Admiral Cervera's flagship, and the Viceaya." He also reiterated his confidence in the Brooklyn's speed by stating that "with one engine and all the boiler power" she could have gotten up all speed that was needed.

Admiral Schley also corrected his statement regarding his visit to the flagship New York when he made his preliminary report of the battle of July 3 to Admiral Sampson. The record, he said, did not make the matter quite clear. "The admiral said to me that I had omitted a very important detail, which was to state that the New York was present." The admiral corrected but one of his answers to the question of the court. This question was to the effect that as he was ordered to go to Cienfuegos to establish a blockade was

it not his duty under the circumstances to communicate direct, either by signal or otherwise, with the senior officer of the vessels returning from Cienfuegos and obtain from him all information regarding the situation at or near that port?

The answer, as corrected reads: "The communication which he made to me through the Eagle, indicated that Captain McCalla concluded I was bound for Cienfuegos and I, of course, took it for granted that if he had anything important he would have notified me of the fact without inquiry."

At this point Admiral Schley announced that he had no more corrections to make. Captain Parker called the admiral's attention to the evidence of Captain Sigsbee in which he had said that when he went on board the Brooklyn the whole question, so far as he could remember, was coal, and nothing but coal, and that Commodore Schley already had made up his mind to go to Key West.

"That was not the first question Sigsbee asked me at all," replied Admiral Schley. "I did not say to Captain Sigsbee that we were going to Key West, as the signal will show. Sigsbee was talking on the subject of coal, and since he mentions it I recall the fact that his statement was that he was commanding a vessel that was one-tenth of a mile long, and that she could not turn her engines over under 150 tons coal a day, and also that he could not remain there very long, that he would have to go to Key West."

"Had you as a matter of fact made up your mind at that time to go to Key West?" "I had not."

After some further examination Admiral Schley was excused and Captain Lemly offered as evidence documents previously mentioned. The report of Captain Goodrich on cable cutting was objected to and Captain Lemly withdrew it. Among this documentary evidence was a letter of the secretary of the navy to the president of the senate, dated Feb. 16, 1899, in response to the senate resolution of Jan. 23, 1899, submitting facts and military records affecting the proposal that certain officers in the navy, according to the nominations sent to the senate Dec. 7, 1899. The opposition of Captain Lemly to admit this letter as evidence caused considerable discussion. Mr. Rayner objected to any ex parte statements being made of the record. It was finally decided that the letter should not go into the printed record in the case but that it may be referred to in the course of argument. Captain Parker stated that there were two letters among this documentary evidence, one of them being a criticism of the conduct of Admiral Schley by Admiral Sampson. "We object," he said, "unless we can bring Admiral Sampson to the stand." Admiral Lemly challenged him to produce that letter from Admiral Sampson. This Captain Parker did, but Captain Lemly stated it was not embraced in that part of the documentary evidence he introduced.

Mr. Rayner offered in evidence the commission of Admiral Schley and when asked if he had any objection to its going in Captain Lemly replied: "Not at all," but called attention to the fact that it was a commission dated Aug. 10, 1898, issued during a recess of congress and that the words "nominated by and with the advice and consent of the senate," were stricken out. "It will appear, of course," said Captain Lemly, "exactly as it appears here."

Captain Parker—"This commission was issued under the law that authorized it for gallant conduct in battle."

In reply to a question by Admiral Dewey, Captain Lemly said: "It is signed by the president. It was a recess appointment, but the court will remember that none of those interim appointments was confirmed."

Admiral Dewey—"It is valueless if it has not been confirmed by the senate. It can go in but it has no value, of course."

Court then recessed for luncheon, after which Mr. Hanna began the argument. It is probable the argument will last until Thursday.

Porto Ricans Want Coffee Tariff.

Washington, Nov. 4.—A delegation from the Porto Rican chamber of commerce, headed by Antonio Balanquida, called on the president and submitted some data in favor of a duty of 5 cents per pound on coffee from countries other than Porto Rico. They claim that such a protective duty is necessary to build up the coffee industry of the island. The delegation has been touring the United States for the purpose of investigating the industrial conditions here. They were accompanied by Major George W. Fishback of Boston.

Funston Coming Home.

Kansas City, Nov. 4.—It is stated that General Frederick Funston will shortly be given a leave of absence from the Philippines and return to the United States on a visit. It is said that he is recovering rapidly from the operation for appendicitis recently undergone at a Manila hospital. General Fred D. Grant, will, it is stated, likely succeed General Funston in command of the San Fernando district.

BOBS WANTS TO QUIT.

Would Like to Spend Winter of Life in Peace and Quiet.

CAN'T LET GO WHILE WAR LASTS.

More Troops Will Be Rushed to the Transvaal Leaving But a Small Number of Mounted Men at Home—News From Abroad.

London, Nov. 4.—At the service clubs it is rumored that Lord Roberts is anxious to retire. He has never intended to remain the full period at the war office and he is credited with a desire to pass the winter of his days in quiet retirement in India. While the war lasts, however, it is almost certain the commander-in-chief will not leave his post, reports to the contrary notwithstanding.

It is understood to be the intention of the war office to send 5,000 more mounted men out to South Africa during the next six weeks. There are only about 7,000 mounted men at home, so that the military authorities are faced with the problem of training soldiers minus the necessary accompaniment of a cavalry arm. To meet this obvious failing it is probable that several composite regiments of yeomanry will be voluntarily embodied for home service.

A move will soon be made to bring home from South Africa the men who have served over two years in the war and their place may be taken by the British cavalry division of seven regiments now in India. After the conclusion of hostilities it is expected that a permanent garrison at the Cape will consist of 50,000 men.

Wail From the Transvaal.

London, Nov. 4.—Special dispatches from South Africa reveal practically nothing further about the disaster to Colonel Benzon's column. Edgar Wallace, correspondent of a London paper, writing from Pretoria under date of October 18, again protests against optimism and declares that the war will not be over for another year. He urges the immediate dispatch of large reinforcements. "Even when all that is possible has been done in this direction," he says, "it will be necessary to wait grimly and not to expect any quick result."

Fatal Wreck.

Wilmington, Del., Nov. 4.—A south-bound freight train on the Philadelphia, Wilmington and Baltimore railroad ran into a work train at Claymont, Del., six miles north of this city. James Middleton of Philadelphia, fireman on the locomotive of the freight train was instantly killed, and Engineer Frank Gallagher and brakeman J. J. Devine, also of the freight train was seriously injured. Five freight cars were derailed and set on fire by the collision and the tracks were blocked. The train on which President Roosevelt was proceeding to New York was transferred to the Baltimore and Ohio tracks and taken to Philadelphia over that road on account of the blockade.

New Orleans, Nov. 4.—Fire broke out at Jennings, a town where an oil gusher was brought in a few weeks ago, and which is now crowded with prospectors from all over the world, consuming 30 places, of which 12 were business houses, including the bank of Jennings. DURBIN'S DECISION.

Lawyers "Jes Laughed" When They Read
His Letter Refusing to Give Up
Taylor and Finley.

FRANKFORT, Ky., Nov. 3.—Gov. Dar-
bin's letter to Gov. Beckham, published
in to-day's Enquirer, in which he gives
his reasons for not honoring a requisition
for Taylor and Finley, was read with
much surprise in Frankfort, where every
school child knows that his statement of
the events in the trials of Powers are ab-
solutely contradicted by the facts. In
fact when the lawyers here read the let-
ter they were reminded of the story that
Jack Hendricks told on a friend. Hen-
dricks said that soon after his friend was
appointed a Judge of the Court of Ap-
peals he went back to his old home and
asked an old negro servant if he had
heard he had been made a Judge.

"Oh, yes, sir, I heard about it," said
the old darkey.

"What did the people here say about it
when they heard about my appointment
to such a high position?" asked the new
Judge.

"Oh, they didn't say nuthin', they jes'
laughed," replied the negro without a
suspicion that he had dealt a solar plexus
to the pride of the new appointee.

The lawyers here "jes' laughed" when
they read Durbin's letter, because, as one
expressed it, he either did not read the
proceedings and opinion of the Court of
Appeals or else got a lot of misinforma-
tion from some prejudiced source. If he
did read the proceedings of all the trials
here are some things they say he over-
looked:

Henry Youtsey, proved to have been
frequently in Powers's office with a gun
and frequently consulting with Taylor
just prior to the killing, was given a life
sentence, and never even asked a Repub-
lican Court of Appeals for a rehearing,
and is now in the penitentiary.

Caleb Powers did not even ask for a
change of venue at his last trial and was
granted one before his first trial.

Out of over 800 exceptions to Judge
Cantrill's rulings in Power's first trial a
Republican Court of Appeals only sus-
tained three, and these three were on
comparatively minor points. A record
that any Judge under such trying circum-
stances might be proud of and certainly
not a record that shows Cantrill was un-
fair.

In Power's first trial the Jury was com-
posed of one Republican, two anti-Goebel
Democrats, one Prohibitionist and eight
Goebel Democrats, and the Republican
juror said Powers' own testimony proved
his guilt.

Judge Cantrill did not instruct the jury
that the testimony of an accomplice, if
corroborated by another accomplice,
would convict. On the contrary, the in-
structions were explicit that the testi-
mony of an accomplice was worthless un-
less corroborated by others' testimony,
and the Republican Court of Appeals
said the instruction was legal and cor-
rect.

Governor Beckham is not in Frank-
fort, having gone to his home in Bard-
town to vote.

Mr. and Mrs. Fred Bertram's little
daughter is ill with scarlet fever.

A Fiendish Attack.

An attack was lately made on O. F.
Collier of Cherokee, Iowa, that nearly
proved fatal. It came through his kid-
neys. His back got so lame he could
not stoop without great pain nor sit in a
chair except propped by cushions. No
remedy helped him until he tried Elec-
tric Bitters which effected such a won-
derful change that he writes he feels like
a new man. This marvelous medicine
cures backache and kidney trouble, puri-
fies the blood and builds up your health.

If you are able to lay aside only fifty cents to \$5 a week do
you not find that it is either impossible to invest these small

compound interest

The Safety Investment Company,

ing profitable investments to the man whose surplus is very

have passed \$9,228.04 to our reserve fund. For particulars

The Public Ledger was allowed \$17 for publishing notice to taxpayers and bowling alley ordinance.

Wells & Coughlin were allowed \$20.66 for carriages for city officials for Elks' fair parade.

Allen A. Edmonds was allowed \$197.40 for printing 100 copies of the laws and ordinances of the city, and City Attorney Wood was allowed \$200 for his services in codifying said laws and ordinances. Mr. Keith, Mr. Short and others were in favor of allowing Mr. Wood \$50 additional for his services, but Mr. Dodson and Mr. Frost were opposed to giving away the people's money in that way. Mr. Wood said he was satisfied with the \$200, and asked that no additional allowance be made.

A resolution was adopted authorizing the Mayor and City Attorney, in connection with the Ways and Means Committee, to settle and compromise the city's claim for stock in the Maysville and Big Sandy Railroad Company, they to use their best judgment as to the means to

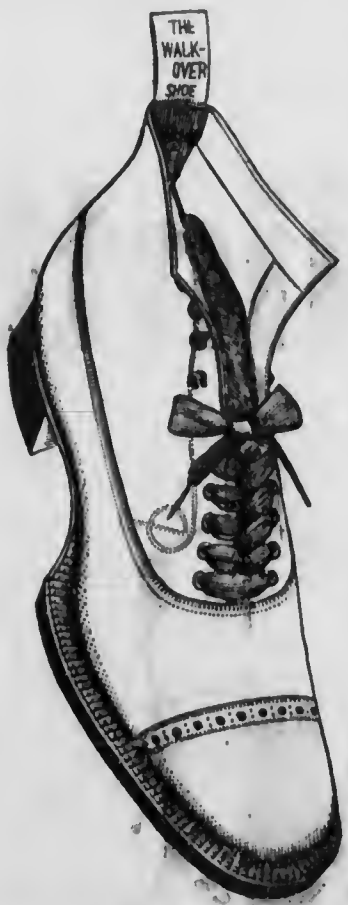

be employed; and in case a settlement is reached they are to transfer the said stock or claim for stock and vest the city's right thereto in such transferee. They are to report to Council at a subsequent meeting.

The question of paying off some of the city's indebtedness with the funds on hand was referred to the Ways and Means Committee with power to act.

Council then adjourned until Thursday evening at 7 o'clock.

THE FRANK OWENS HARDWARE COMPANY

TO BE DEPEND ON.

Because it is the Experience of a Maysville Citizen and Can Readily Be Investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence of experience; it's like a ship in a strange port; a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it is with endorsement; we doubt the sayings of people living at distant points because we can't investigate, but public expression of local citizens can be depended on, for 'tis an easy matter to prove it. Evidence like the following is beyond dispute.

Mrs. R. R. Housh, of 394 Forest avenue, says: "Doan's Kidney Pills quickly relieved Mr. Housh of backache which had been a source of discomfort to him for some time. I procured the remedy at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, and its proven value is so great that it should be known throughout the world."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S.

Remember the name—Doan's—and take no substitute.

Buffalo Bill's loss by the wreck of his show train last week amounts to \$40,000 over and above all that he can recover from the railroad.

What's Your Face Worth?

Sometimes a fortune, but never, if you have a sallow complexion, a jaundiced look, moth patches and blotches on the skin, all signs of liver trouble. But Dr. King's New Life Pills give clear skin, rosy cheeks, rich complexion. Only 25 cents at J. Jas. Wood & Son's drug store.

River News.

Reports have it that the steamer City of Wheeling will on the return of navigable water enter the Pittsburg and Portsmouth trade.

Work on the upper works of the steamer Avalon is being pushed to completion. Report has it that she will make a trip to Pittsburg before going to the Tennessee river.

Capt. M. O. Schriver and Ed. Howe bought the steamer Helen M. Gould Friday from Point Pleasant parties. The consideration is said to have been \$16,000. The Helen M. Gould was up to several months ago the Speedwell, and before that the Handy No. 2, and a season ago plied in the Cincinnati and Portsmouth trade while the Charles B. Pearce was undergoing repairs. She is now practically a new boat, having been rebuilt at Middleport this summer. The boat will be placed in the Cincinnati and Higginsport trade.

A meeting of the stockholders of the Cincinnati, Georgetown and Portsmouth Railroad Company has been called to be held on the third of next month for the purpose of voting on a proposition to increase the capital stock of the company to \$1,500,000 and to consider the issuing of \$1,000,000 five-per-cent bonds, the interest on which is to be paid semi-annually. It is the intention of the owners of the property to have everything of the best that money can procure, including the new equipment. At a later date it is proposed to extend the line to West Union. Some of the present passenger cars will be equipped with electric motors and used, and twelve new coaches will be purchased. The plans for the new cars provide for cars forty-seven feet in length and eight and one-half feet wide. These cars will each have a seating capacity for fifty-two persons.

An Insurance Case Settled.

In affirming the case of Gibbons against the Phoenix Insurance Company taken up from this county, the Court of Appeals says:

Where plaintiffs furnished to the adjuster of defendant insurance company all the information they had as to their loss, exhibiting their books and papers, and defendant, through its adjustment, offered to pay a certain sum, denying liability for any greater sum, there was a waiver of further proof of loss.

E. L. Worthington for company; A. M. J. Cochran for Gibbons.

O. H. P. Thomas & Co., Nos. 120 to 124 Market street, Maysville, Ky., sell Old Time Bourbon and Maysville Club Rye, direct from the distillery, by the quart, gallon or barrel; the finest in the State; guaranteed pure and as represented as to age.

THE H. E. POGUE DISTILLERY CO.

Plans are being discussed for a reconciliation of the differences between the Board of Directors of the Masonic Home at Louisville and the Grand Lodge of Masons of Kentucky. They have been at odds because of the refusal of the Home to lend the lodge \$200,000, with which to build a new temple. The lodge demanded the instant return of \$90,000 of its funds which the Home held. The Home Directors will, it is said, propose to lend \$150,000 to the lodge and raise the other \$50,000 by means of bonds, which will be taken by the different lodges. This will probably be accepted.

Between the ages of fifteen and forty-five, the time when womanhood begins and motherhood ends, it is estimated that the aggregate term of woman's suffering is ten years. Ten years out of thirty! One third of the best part of a woman's life sacrificed! Think of the enormous loss of time! But time is not all that is lost. Those years of suffering steal the bloom from the cheeks, the brightness from the eyes, the fairness from the form. They write their record in many a crease and wrinkle. What a boon then to woman, is Dr. Pierce's Favorite Prescription. It promotes perfect regularity, dries up debilitating drains, heals ulceration, cures female weakness, and establishes the delicate womanly organs in vigorous and permanent health. No other medicine can do for woman what is done by Dr. Pierce's Favorite Prescription.

CONGRESSIONAL DISTRICT:

W. H. Means, of Mason County, announces himself a candidate for assistant superintendent for the purchase of Boots and Shoes, subject to the action of the people with feet. My platform is solid sole leather, the only one that both Democrats and Republicans can stand on and all be satisfied. My duties as manager of Dan Cohen's Great Western Shoe Store prevents me from making a personal canvass. I want the office for the money there is in it. If elected my deputies shall be Jim Egnew and Billy Cooper. If you want money before you vote call on me at Dan Cohen's Great Western Shoe Store, Maysville, Ky.

MY DEV ICE.

G. W. Rogers & Co., No. 127 Market street, Maysville, is the place to get pure, straight two-stamp "guaranteed" whiskies, brandies and gins, California wines &c. No spirits or rectified goods sold. Best \$2 whisky on earth.

Moses Lane and the members of his family came near losing their lives at the burning of their house Saturday morning west of Washington. But for the timely arrival of a boy who had been to

a gathering in the neighborhood, and who discovered the house wrapped in flames, likely none of them would be alive now. As it was Mr. Lane had hard work awakening the family, and then they had to get out through windows.
